

Legal Practice Management Course

for ALPMA Members, Practice Managers and Legal Support Professionals

The College of Law is pleased to offer our Legal Practice Management Course to ALPMA members, Practice Managers and Legal Support Professionals. This course is not open to practising lawyers.

The course will feature the same course content that the College provides to legal practitioners, however you will have the option to not undertake the assessments in Trust Accounting, Business Plan and Risk, although you will be encouraged to do so.

Why attend?

- This is a highly reputable course. All new Principals and those setting up a new practice are required by the Legal Practice Board of Western Australia (LPBWA) to attend as it focuses on the business of running a legal practice.
- This course will give Practice Managers of all levels of experience an opportunity to review what you do, learn new skills, listen to different perspectives and interact with others who are facing similar challenges and issues.
- Our course is highly interactive and there will be significant time devoted to discussing topics that impact the bottom line, such as Financial Management.
